

the
Minnehaha Creek
Watershed District
presents

in cooperation with

TonkaBlue

Stop!

Half Empty or Half Full
The Water is still the same
But once the Water's gone
The glass is all that will
remain.

It's YOUR Water and Mine.

Whatever your stance, whatever
your lean, water is a public
resource to be protected and
maintained. We share it with
everyone, including plants and
animals. What do YOU think we
should use it for?

Stop.

and think about your water
