Minnehaha Creek
Watershed District
presents

in cooperation with

TonkaBlue

Put Trash In the Can

Dropping litter is for quitters
Who don't want to carry their weight
So throw that sin in the bin
And about yourself, you'll feel great

Put trash where it belongs.
Take responsibility for your
own trash and don't be bashful
about picking up the slack for
our friends and neighbors.
Plastic litter can last forever
and ends up polluting our
lakes, rivers and wetlands.

Stop.
and think about your water
